

Flat Cups PAHS Series

PAHS Series - Level Compensators with Side Barbed Connections

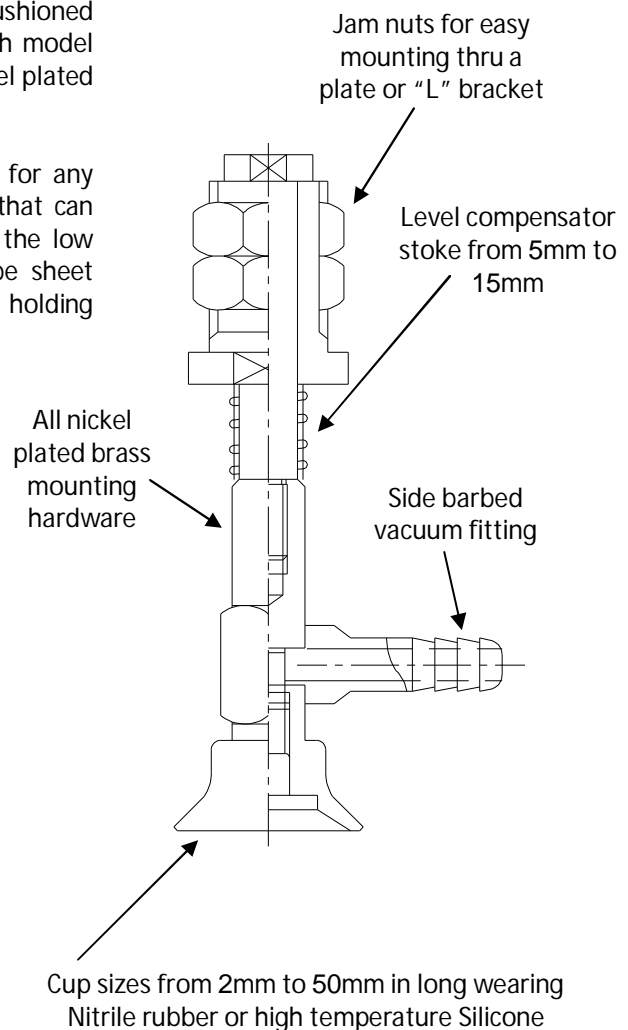

Application

Cup assemblies are spring loaded to allow a cushioned pick up and also adjust for different levels. Each model has a side barbed fitting for vacuum tubing. Nickel plated brass materials.

PAHS series flat suction cups are ideally suited for any smooth or slightly curved surface or a surface that can benefit from the stability and fast response of the low profile cup design. Typical applications can be sheet metal, semiconductor chips, glass, press transfer, holding fixtures, injection molding, woodworking.
