

- Bellows design for level compensation and uneven surfaces
- Sheet separation for flexible and stacked products
- 11mm to 53mm diameters
- Available in long wearing Nitrile (NBR) and high temperature Silicone (SIT)

Applications

Ideally suited for curved, corrugated, textured surfaces and flexible products. The bellows design will collapse on contact with the product providing a slight lifting movement while breaking the vacuum between stacked products. The bellows style adds level compensation for different heights and uneven surfaces.

Cup Diameter	Nitrile (NBR)	Silicone (SIT)
11	SB.11.NBR	SB.11.SIT
14	SB.14.NBR	SB.14.SIT
16	SB.16.NBR	SB.16.SIT
20	SB.20.NBR	SB.20.SIT
22	SB.22.NBR	SB.22.SIT
25	SB.25.NBR	SB.25.SIT
33	SB.33.NBR	SB.33.SIT
43	SB.43.NBR	SB.43.SIT
53	SB.53.NBR	SB.53.SIT
